Demo Data separation Secure Import

November 10th , 2026
Rutger Meursing & Amber Kuiper
SmartLOXS & Cargonaut

AMS Schiphol

CARGONAUT

smartLOXS

Why separate the data?

Secure Import now splits the data by domain:

- **Cargonaut:** shipment information and customs processes
- **SmartLOXS:** carriers, drivers, vehicles, ACN passes and their authorizations

The separation has three reasons:

- Privacy and regulatory compliance
- Central management of authorizations
- Information security and lower risk

Live: 24 november

The New Secure Import Shipment Pre-notification Process

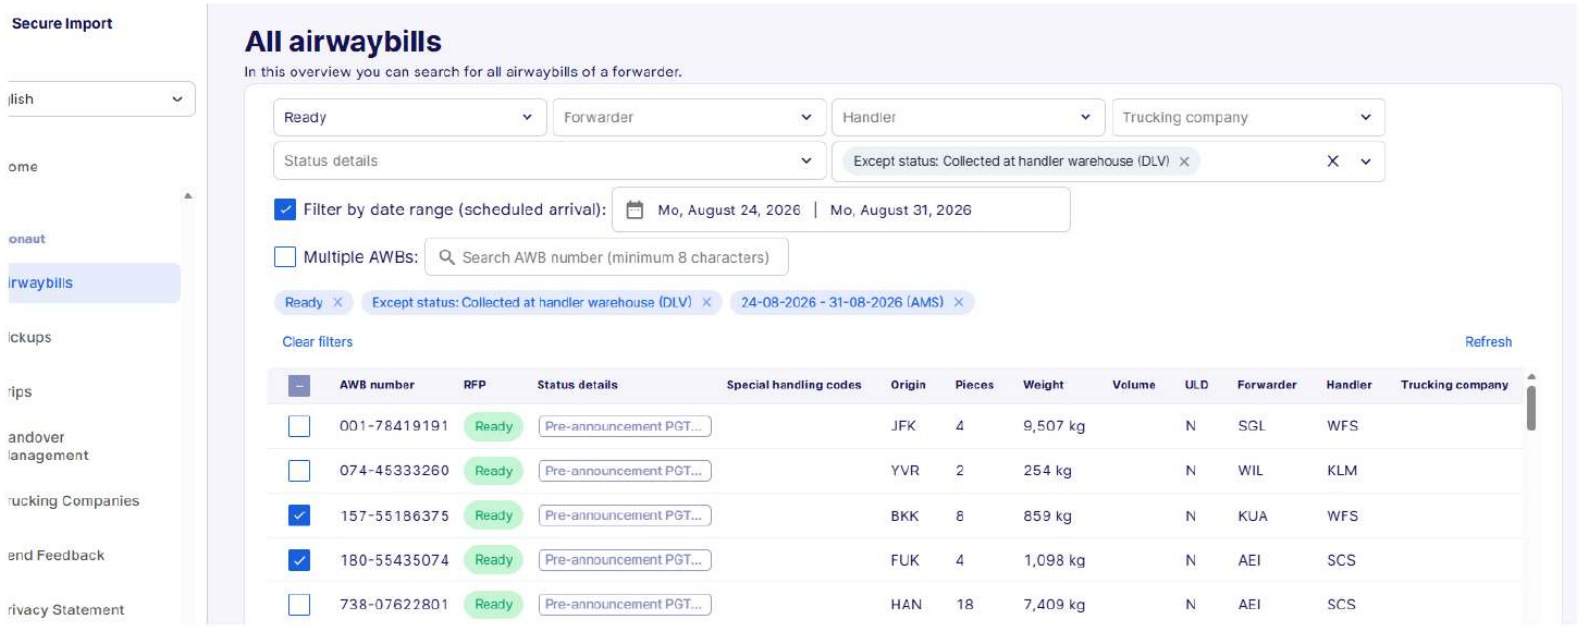

AMS Schiphol

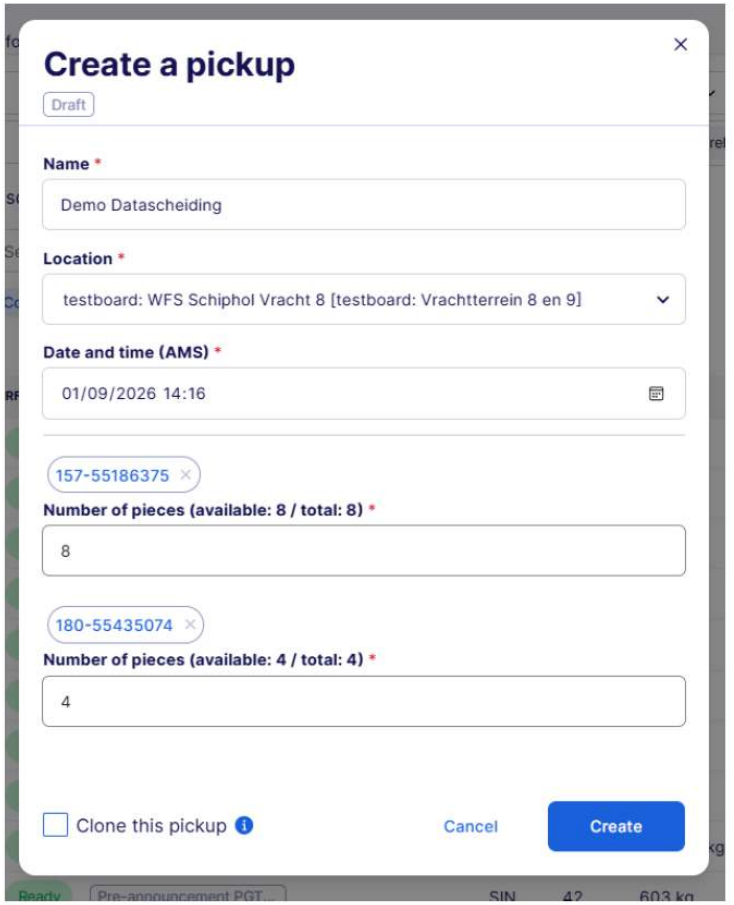

CARGONAUT

smartLOXS

Create a pickup – Secure Import

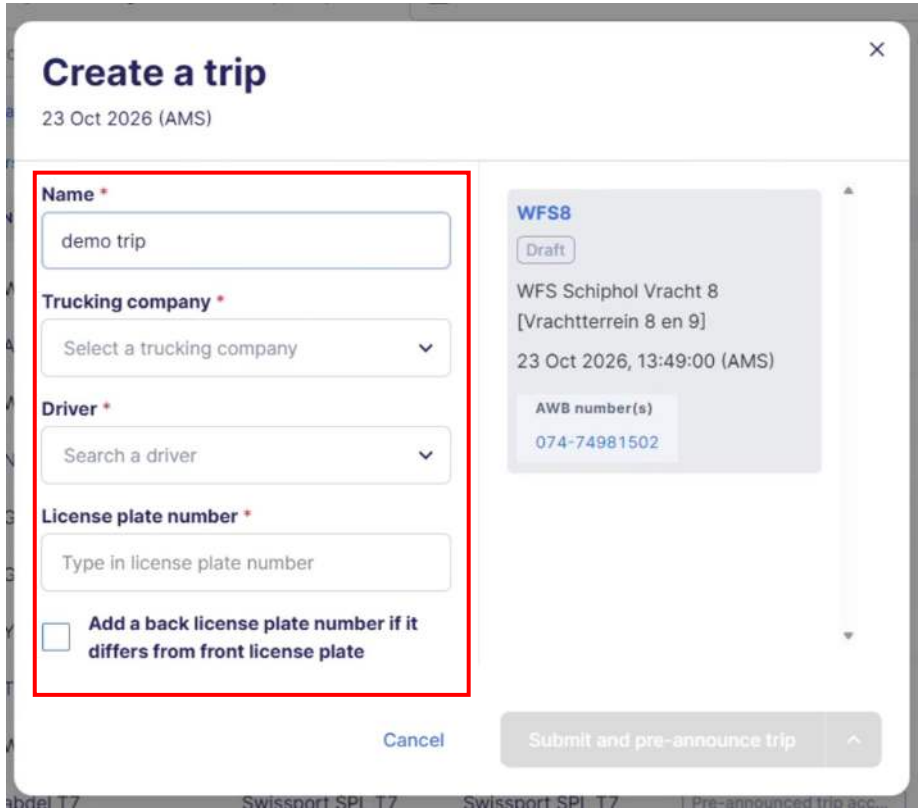

No change: pickups are created in the same way

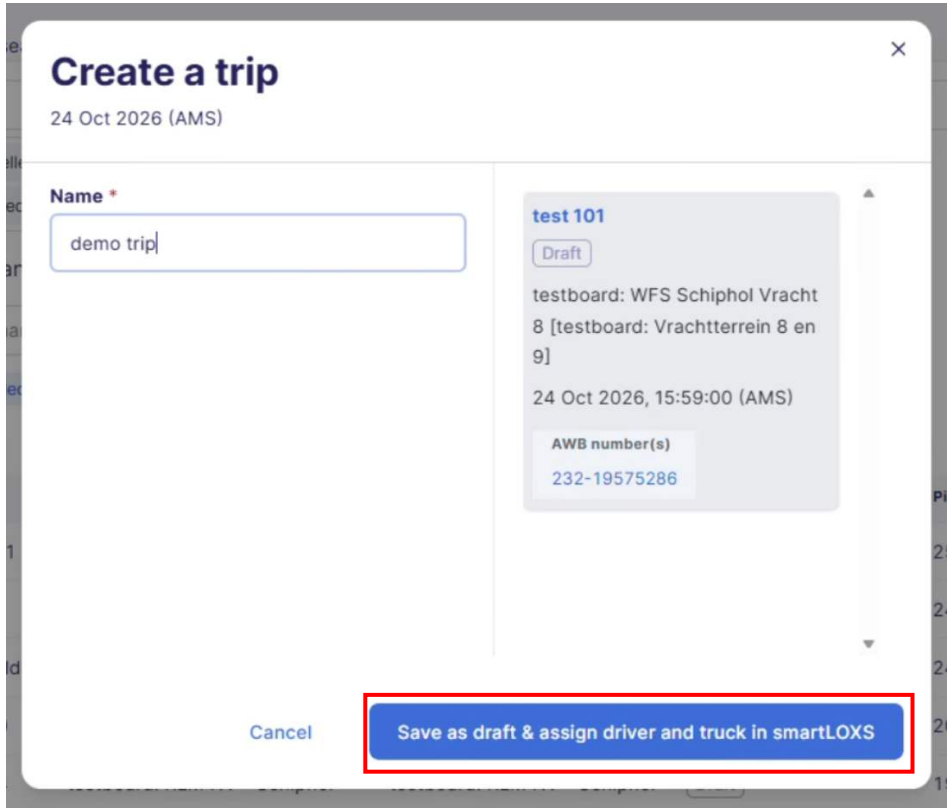

Create a trip and pre-announce – Secure Import

Current situation
Enter all trip details and pre-announce the trip.

Future situation
Enter only the trip name. The button takes you to SmartLOXS to assign a driver and truck.

Note: Allow pop-up when connecting to SmartLOXS

When redirecting from **Secure Import** to **SmartLoXS** for the first time, your browser may block the new window required to complete the connection.

If this happens:

- Click the pop-up notification or icon displayed near the address bar.
- Allow the pop-up or redirect for the site.
- Retry the connection if necessary.

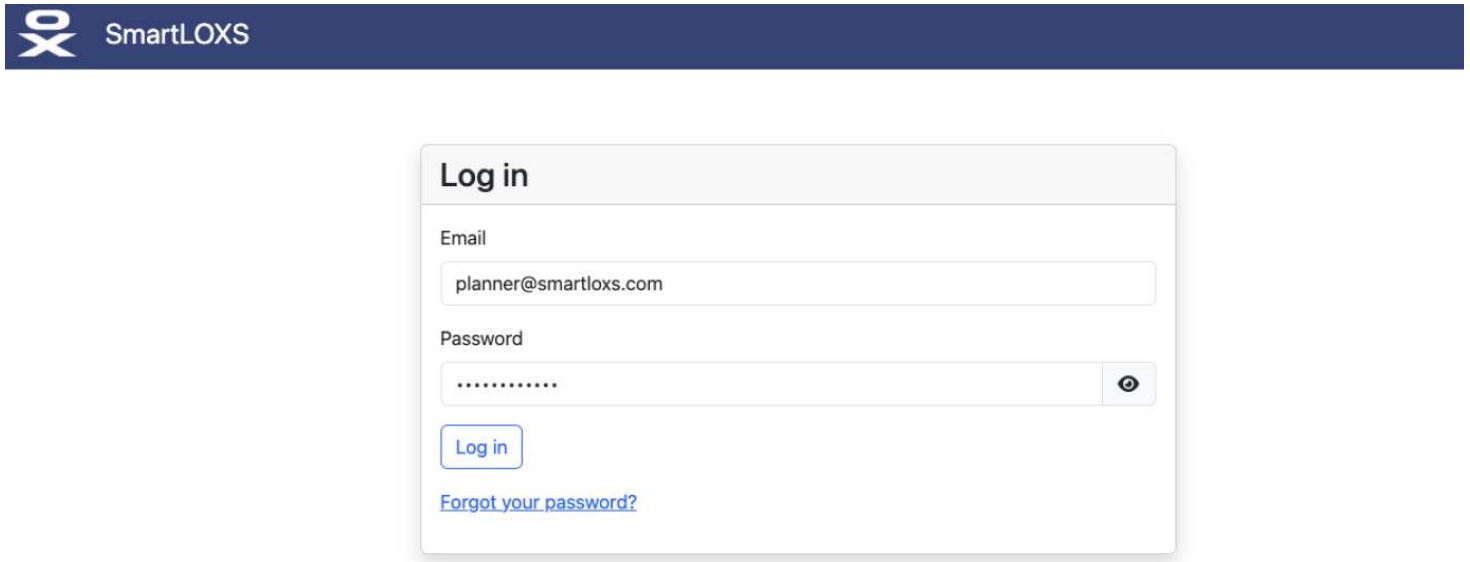

The appearance of the message varies by browser (Microsoft Edge, Google Chrome, Safari, etc.). Common messages include:

- *Pop-up blocked*
- *Show blocked pop-up window*
- *Allow pop-ups for this site*

Example (Safari):

Log in - SmartLOXS

Personal account required

Every planner needs a **personal SmartLOXS account** to log in to the portal.

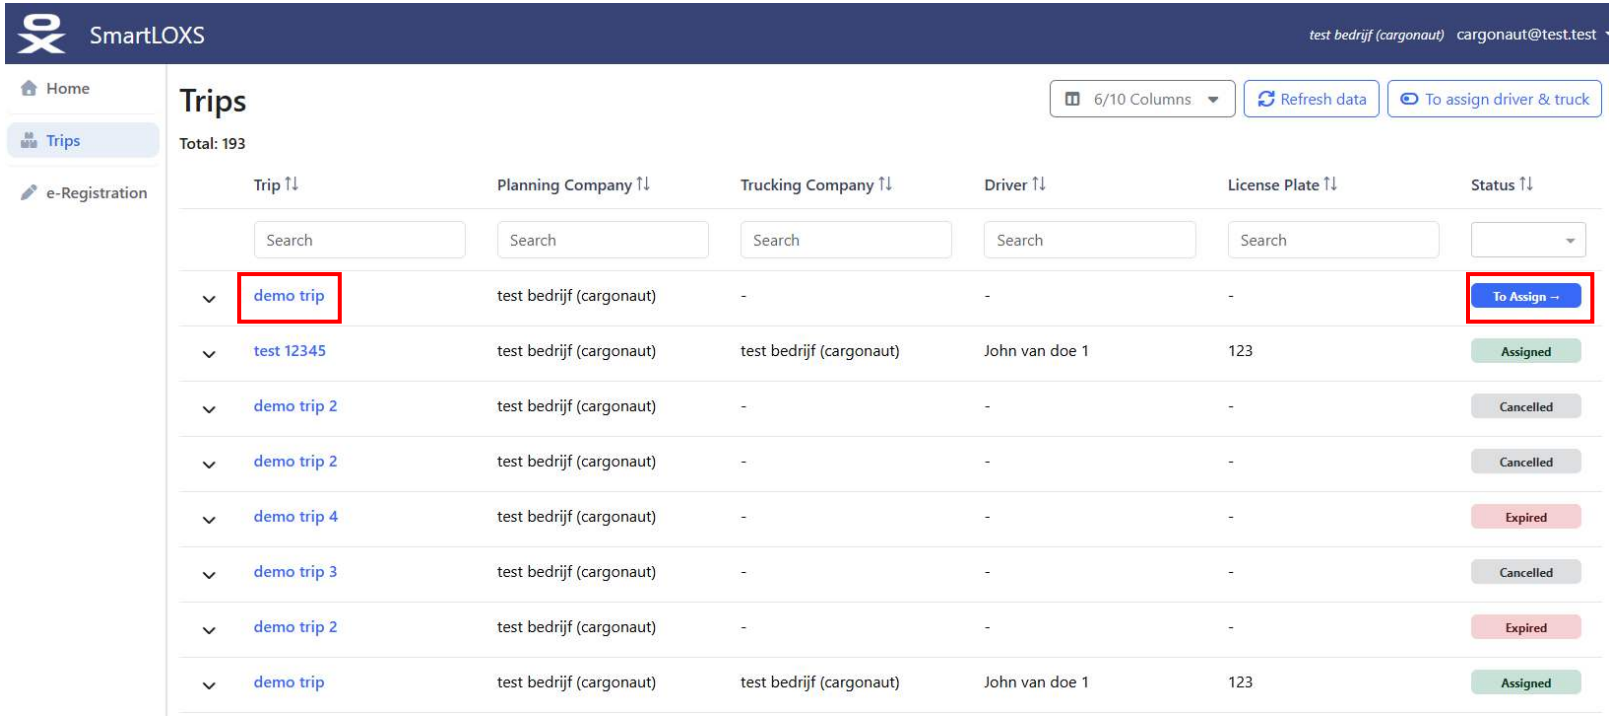

No account yet?

Ask a colleague at your company who already has a SmartLOXS account to email **helpdesk@smartloxs.com** with your:

- First name
- Last name
- Phone number
- Email address

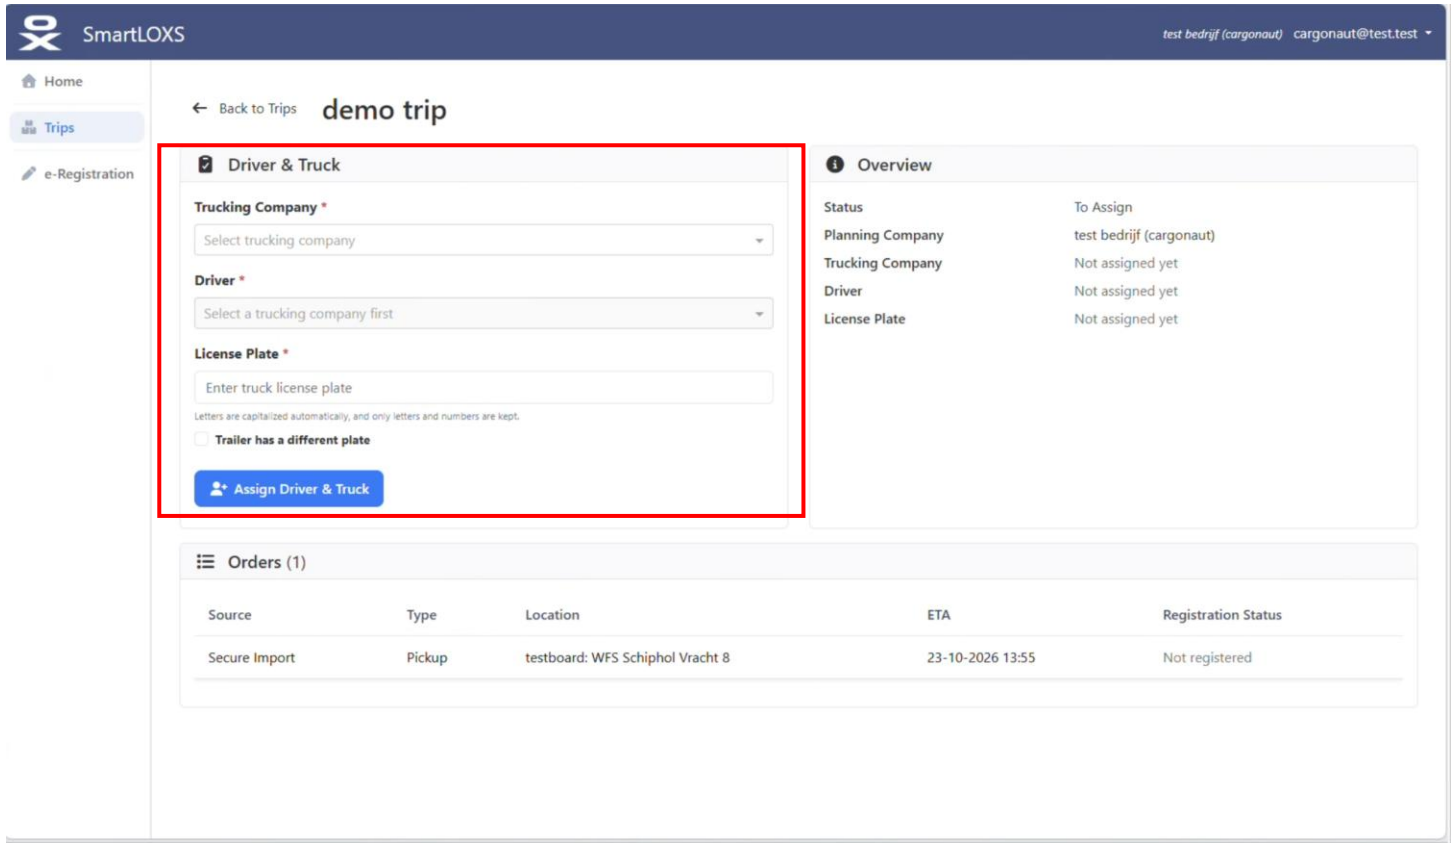

Mention in the email that the request is for **Secure Import**.

Open your new trip - SmartLOXS

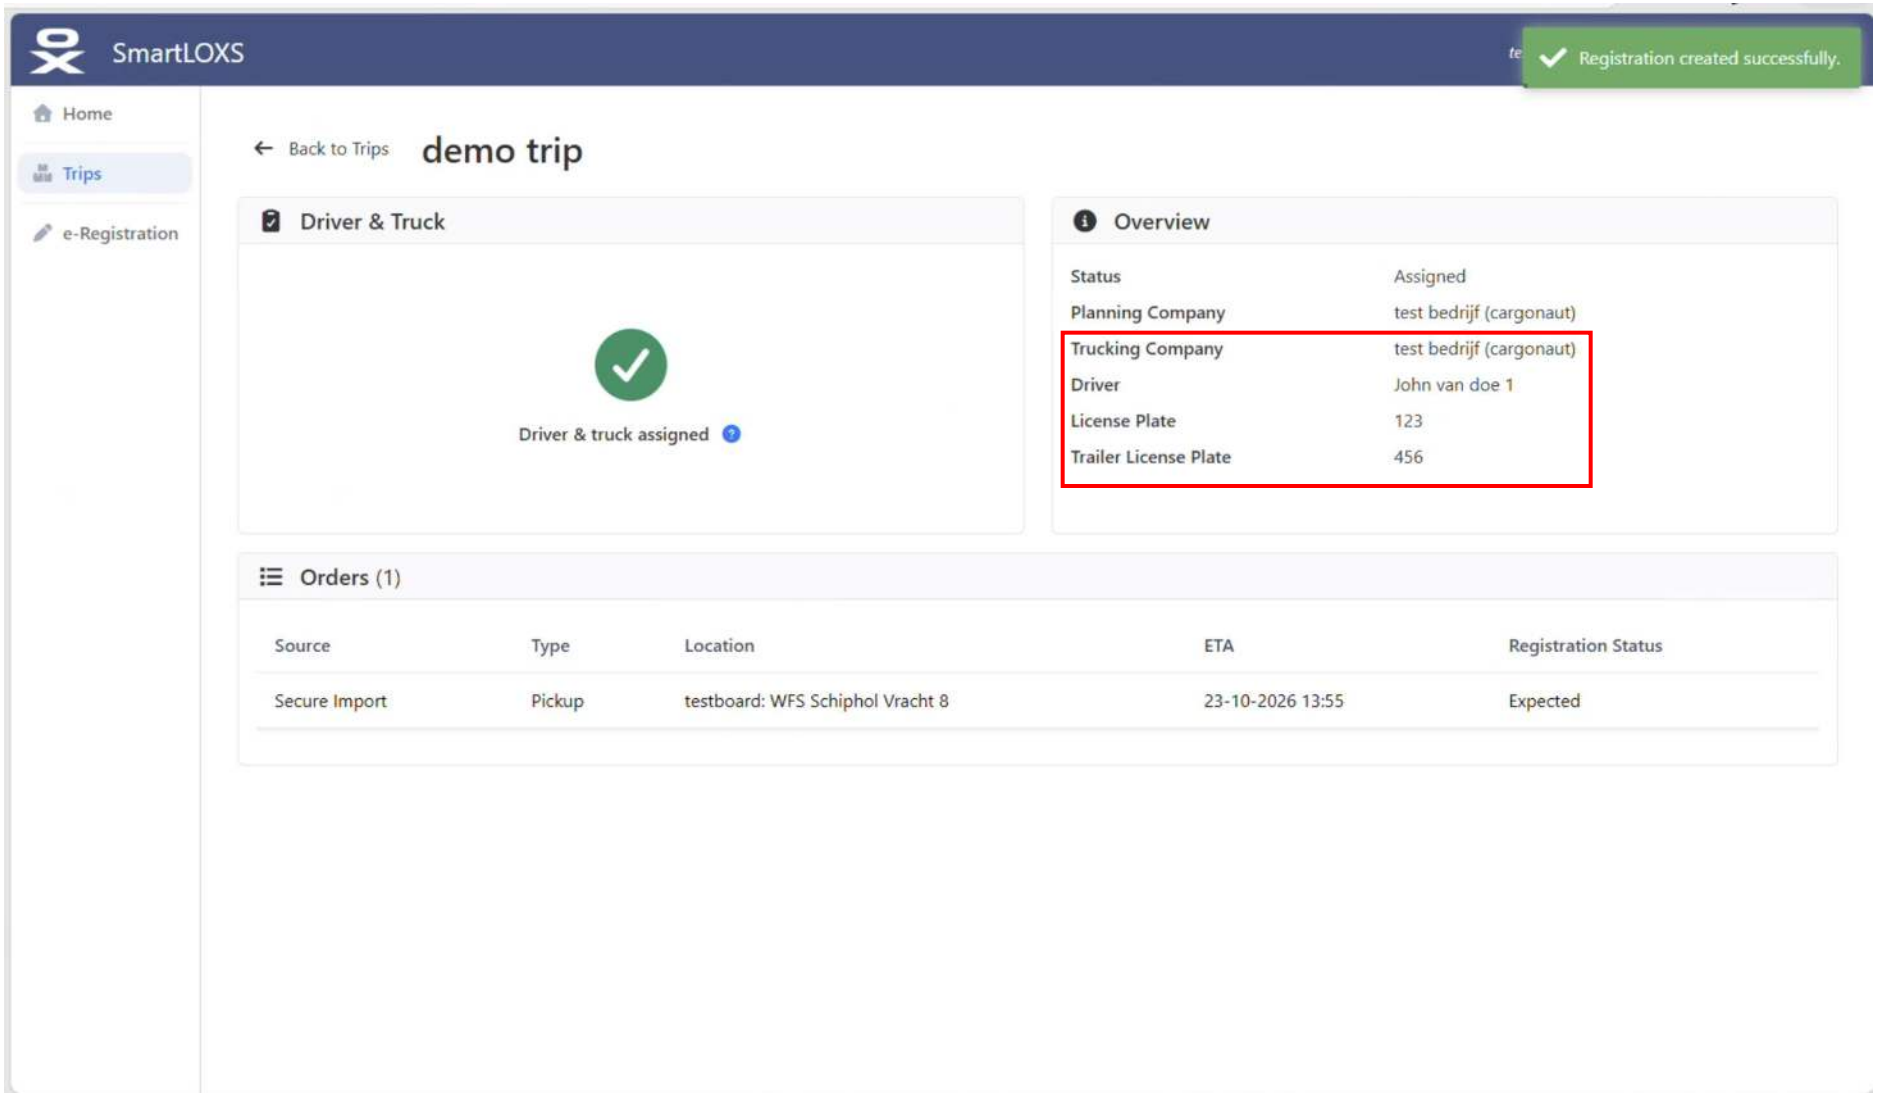

- The trip overview opens with your new trip at the top.
- Click the trip name or the ‘To Assign’ button
- *Tip: You can also type the trip name in the Trip search box.*

Assign Trucking company, Driver & License plate - SmartLOXS

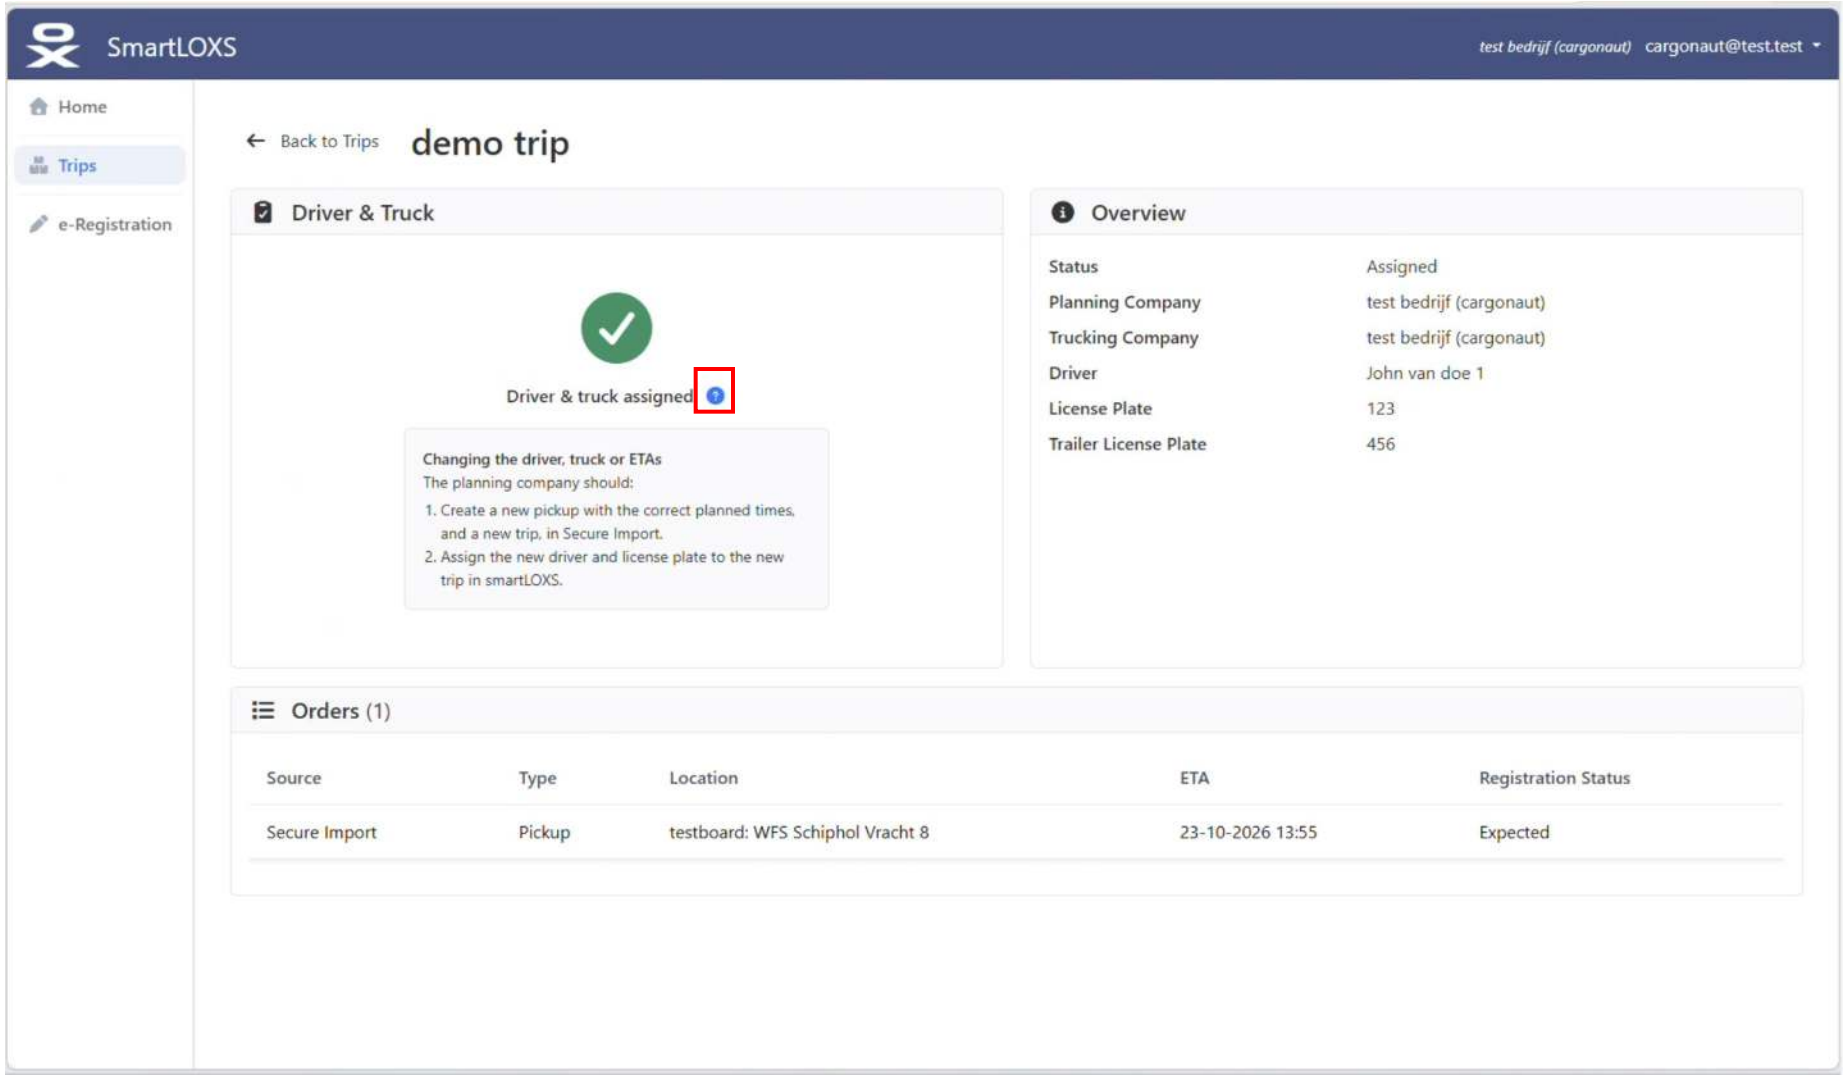

- Complete the fields marked in red to pre-announce the trip.
- The trip stays in Draft status until all required fields are filled in and then becomes pre-announced.

Trip is pre-announced - SmartLOXS

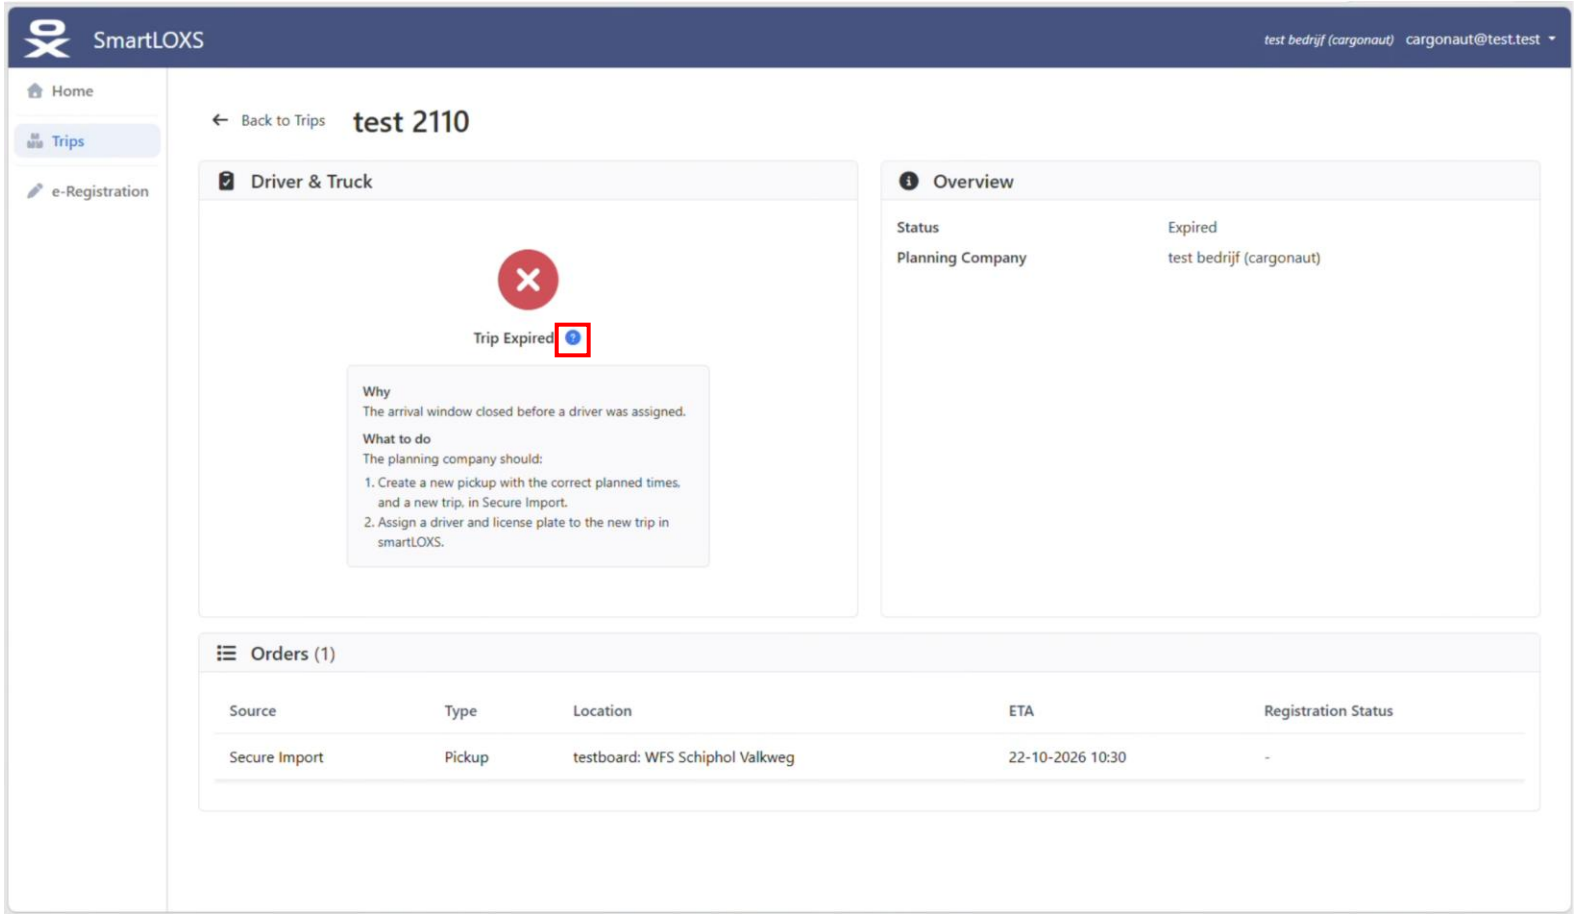

Changing driver, truck or ETA - SmartLOXS

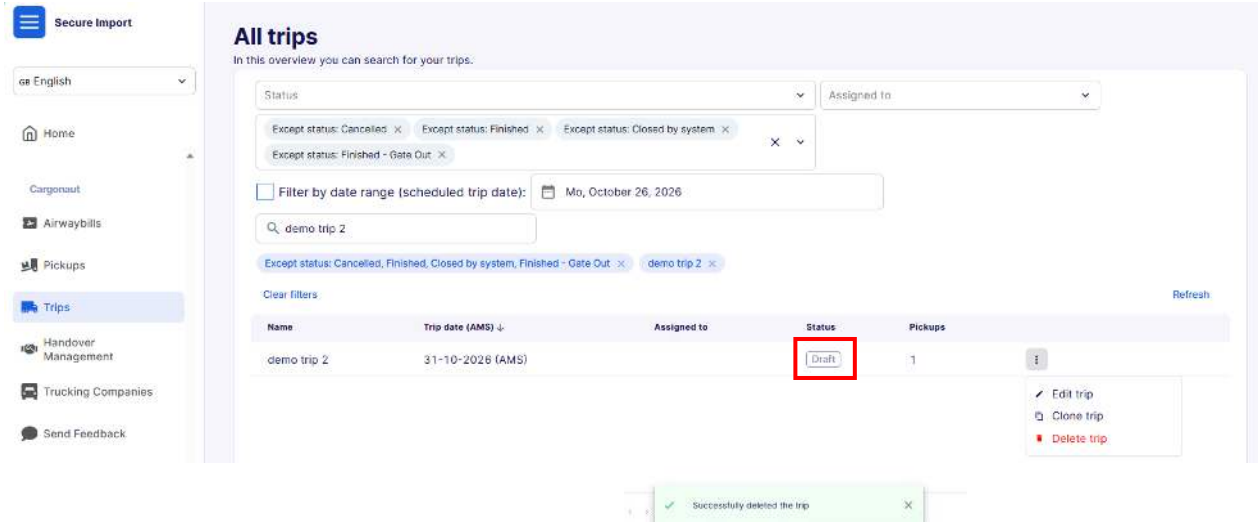

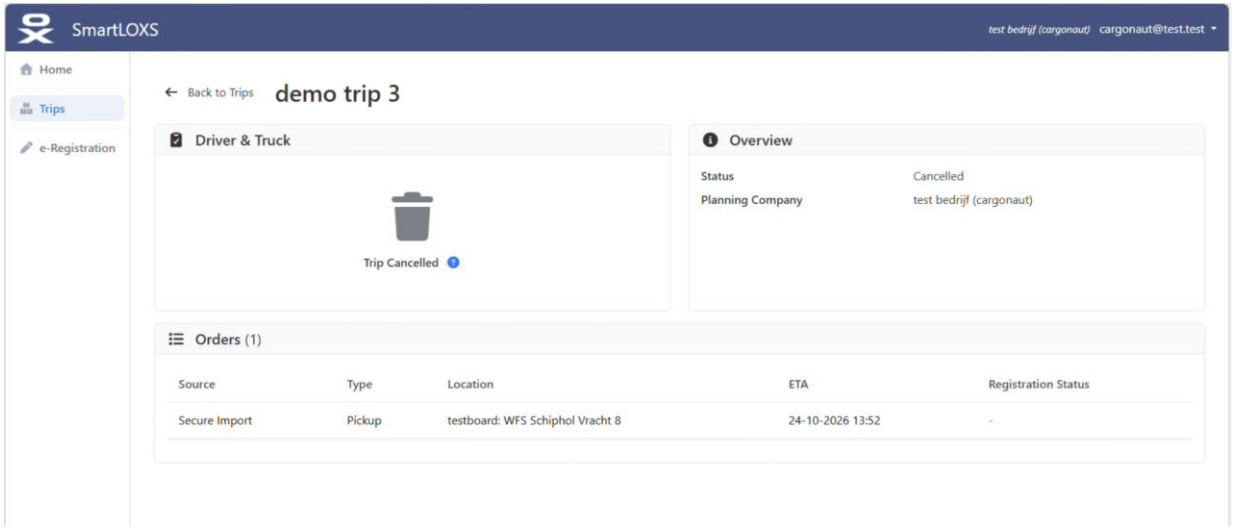

Expired trips - SmartLOXS

When the planned pickup time has passed and the required details have not been completed, the trip expires.

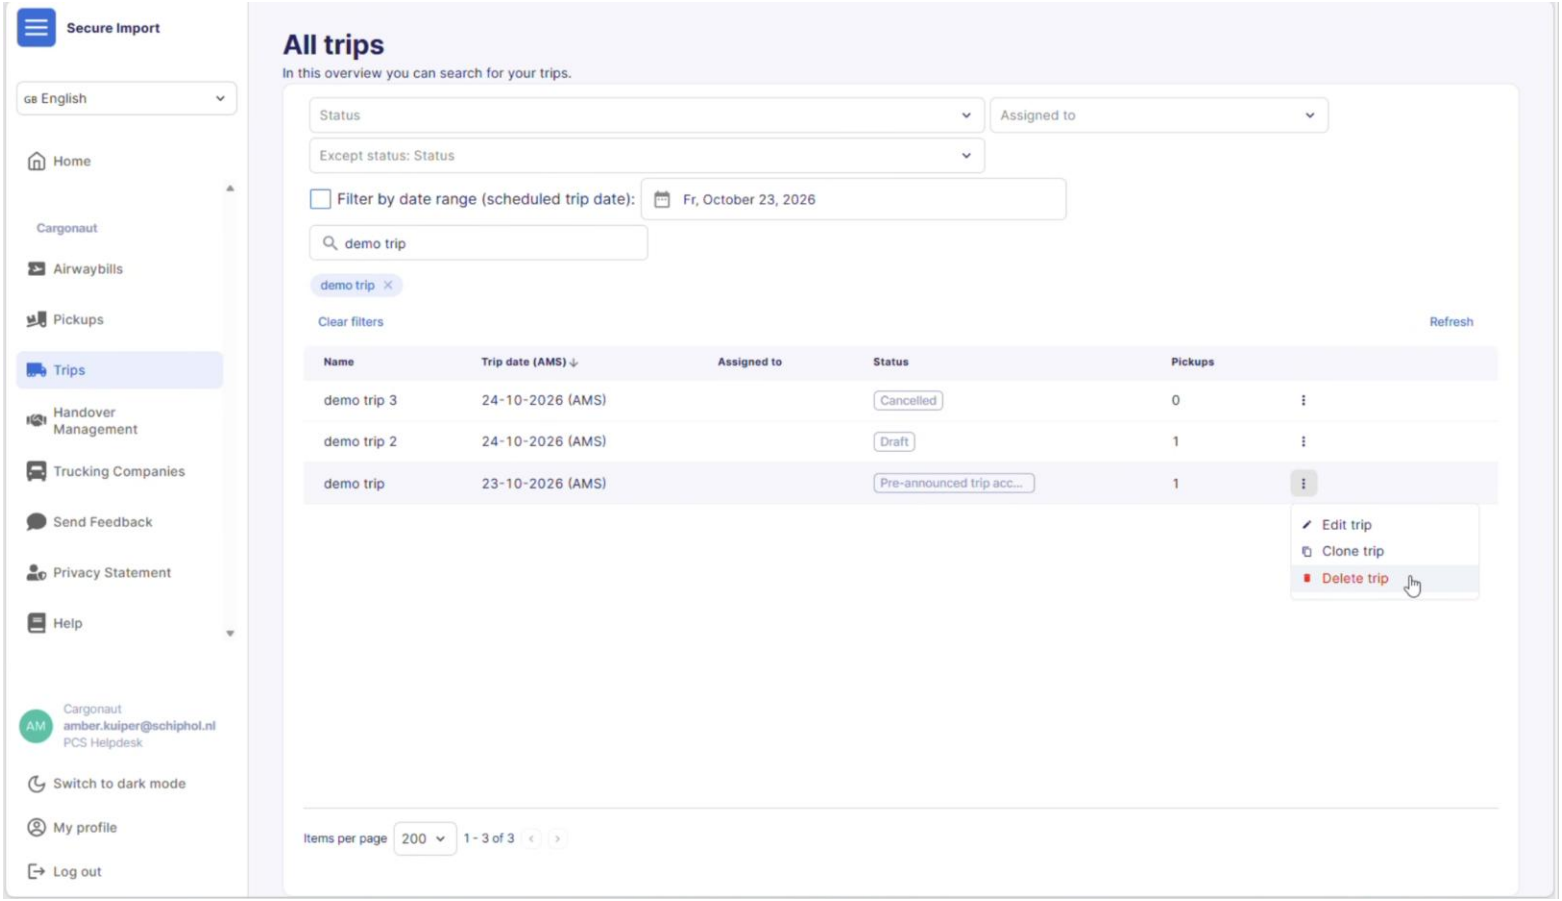

Cancelled Trips – Secure Import & SmartLOXS

You can only delete a trip in the Secure Import portal while the trip is still in Draft status.

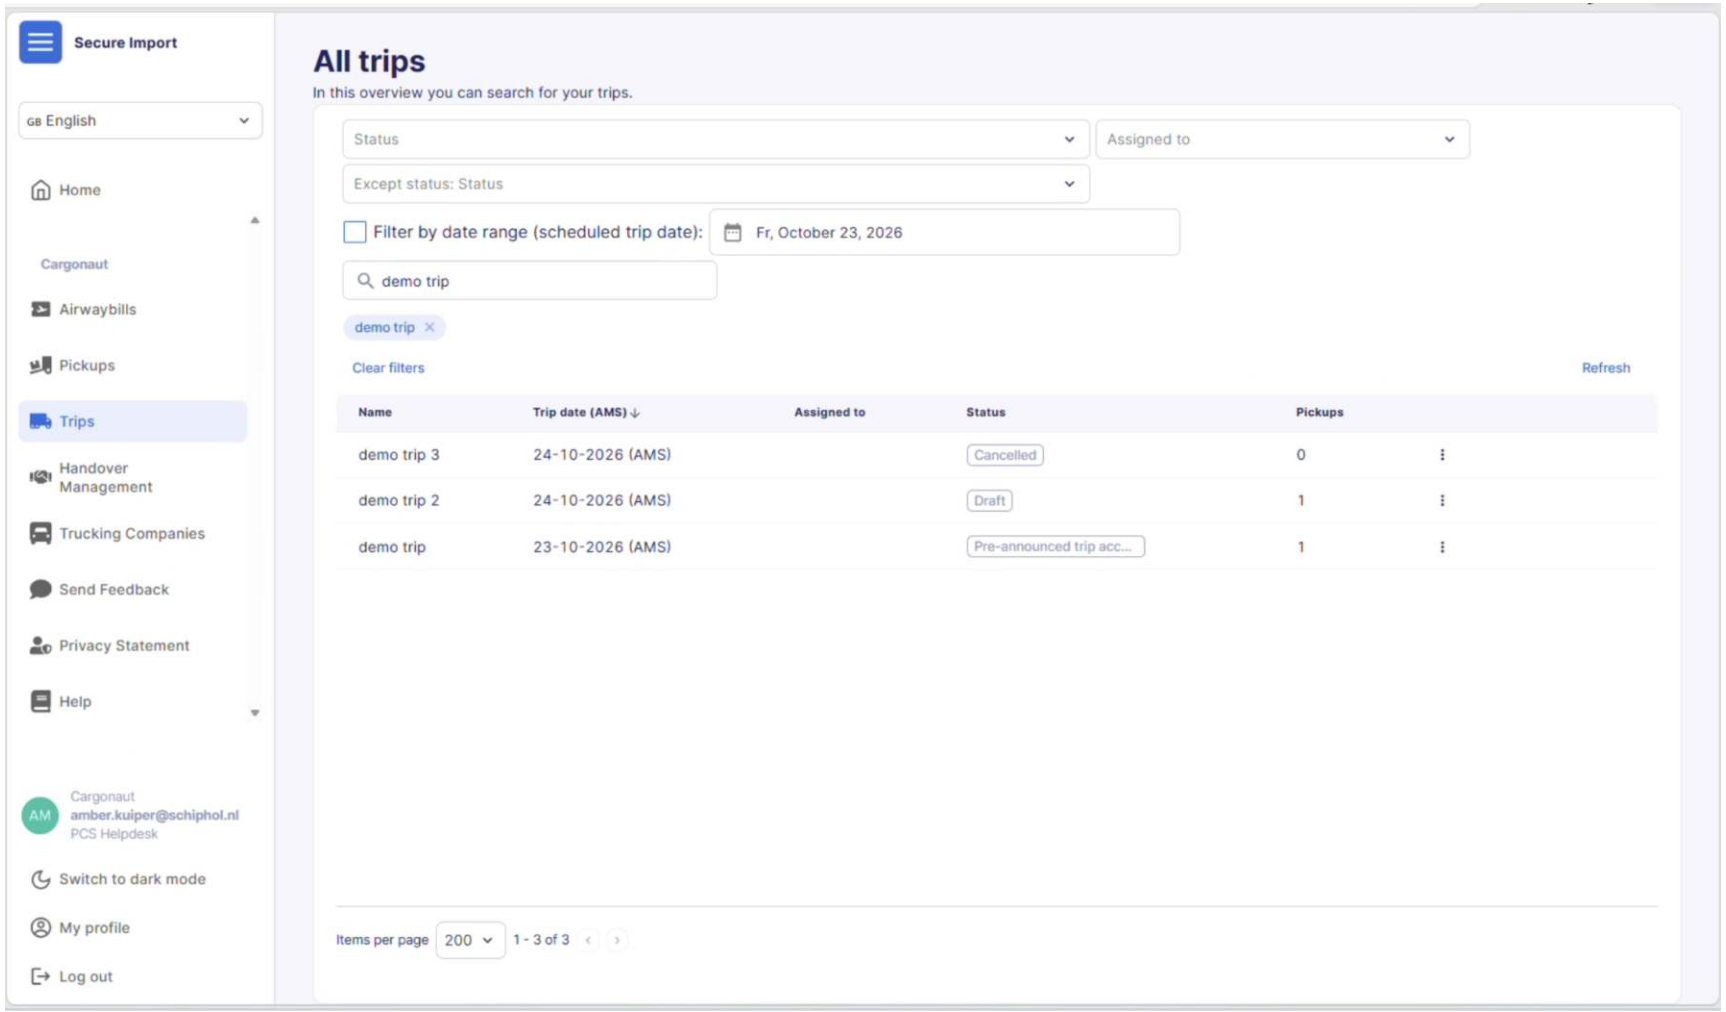

Pre-announced trips cannot be deleted – Secure Import

Once the trip is assigned and therefore Pre-announced in Secure Import, it can no longer be deleted.
